Assurances

The Florida Department of Education (FDOE) has developed and implemented a document entitled **General Terms, Assurances and Conditions for Participation in Federal and State Programs** to comply with:

2 C.F.R. 200, Uniform Grant Guidance (UGG) requiring agencies to submit a common assurance for participation in federal programs funded by the United States Education Department (USED); Applicable regulations of other Federal agencies; and State regulations and laws pertaining to the expenditure of state funds

In order to receive funding, **applicants must have on file with the Florida Department of Education, Office of the Comptroller, a signed statement by the agency head certifying applicant adherence to these General Assurances for Participation in State and Federal Programs.** The complete text may be found in Section D of the Green Book.

School Districts, Community Colleges, Universities, and State Agencies

The certification of adherence, currently on file with the FDOE Comptroller's Office, shall remain in effect indefinitely. The certification does not need to be resubmitted with this application, unless a change occurs in federal or state law, or there are other changes in circumstances affecting a term, assurance or condition.

Note: The UGG combines and codifies the requirements of eight Office of Management and Budget (OMB) Circulars: A-89, A-102 (former 34 CFR part 80), A-110 (former 34 CFR part 74), A-21, A-87, A-122, A-133, A-50. For the FDOE this means that the requirements in EDGAR Parts 74 and 80 have also been subsumed under the UGG. The final rule implementing the UGG was published in the Federal Register on December 19, 2014 and became effective for new and continuation awards issued on or after December 26, 2014.

Technical assistance documents and other materials related to the UGG, including frequently asked questions and webinar recordings, are available at The Chief Financial Officers Council web site:

<https://cfo.gov/cofar>.

Risk Analysis

Every agency must complete a Risk Analysis form. The appropriate DOE 610 or DOE 620 form will be required prior to a project award being issued. The Risk Analysis must be submitted with the application. If an agency is submitting applications for multiple programs, only one Risk Analysis is required.

School Districts, State Colleges, and State Universities, and State Agencies must use the DOE 610 form. Once submitted and approved, the risk analysis will remain in effect unless changes are required by changes in federal or state law, changes in the circumstances affecting the financial and administrative capabilities of the agency or requested by the Department. A change in the agency head or the agency's head of financial management requires an amendment to the form. The DOE 610 form may be found at <http://www.fldoe.org/core/fileparse.php/5625/urlt/doe610.xls>

Funding Method

Reimbursement with Performance

Payment is rendered upon submission of documented allowable disbursements, plus documentation of completion of specified performance objectives.

Fiscal Records Requirements and Documentation

Applicants must complete a Budget Narrative form, DOE101S. Budget pages must be completed to provide sufficient information to enable FDOE reviewers to understand the nature and reason for the line item cost.

All accounts, records, and other supporting documentation pertaining to costs incurred shall be maintained by the recipient for five years. Supporting documentation for expenditures is required for all funding methods. Examples of such documentation include but are not limited to: invoices with check numbers verifying payment, and/or bank statements; time and effort logs for staff, salary/benefits schedules for staff. All must be available upon request.

Funded programs and any amendments are subject to the procedures outlined in the FDOE Project Application and Amendment Procedures for Federal and State Programs (Green Book) and the General Assurances for Participation in Federal and State Programs, which may be found at: <http://www.fldoe.org/finance/contracts-grants-procurement/grants-management/project-application-amendment-procedure.stml>.

Budgeted items must correlate with the narrative portion of the project application that describes the specific activities, tasks and deliverables to be implemented.

All project recipients must submit a completed DOE 399 form, Final Project Disbursement Report by the dates specified on the DOE 200 form, Project Award Notification.

Financial Consequences

The grant manager shall periodically review the progress made on the activities and deliverables listed. If the sub-recipient fails to meet and comply with the activities/deliverables established in the grant or to make appropriate progress on the activities and/or towards the deliverables and they are not resolved within two weeks of notification, the grant manager may approve a reduced payment or request the sub-recipient redo the work or terminate the grant. Failure to meet the deliverables appropriate to the project award will result in a decrease in payment commensurate to the incomplete activities. Should the grantee fail to deliver the minimum requirements reflected in the scope of work, reimbursements will be withheld from the date of noncompliance until each deliverable has met compliance. **The grant manager must assess one or more of these consequences based on the severity of the failure to perform and the impact of**

such failure on the ability of the sub-recipient to meet the timely and desired results. These financial consequences shall not be considered penalties.

Allowable Expenses:

Program funds must be used solely for activities that directly support the accomplishment of the program purpose, priorities and expected outcomes during the program period. All expenditures must be consistent with the approved application, as well as applicable state and federal laws, regulations and guidance. Allowable expenditures may include costs associated with employing appropriate staff for administering the project, office materials and supplies and other relevant costs associated with the administration of the project, including meeting room rentals, consultant fees, printing, etc.

Expenses for personal digital assistants (PDA), cell phones, smart phones and similar devices, including the service costs to support such devices may be allowable, with FDOE prior approval. Applicants will need to describe and justify the need for such devices, identify the amount that will be applicable to the project and how the device will be kept secure.

Unallowable Expenses:

Unless otherwise specifically authorized herein, sub-recipient shall not convey anything of value, including but not limited to gifts, loans, rewards, favors or services, directly to any agent, employee or representative of the Department, and shall promptly notify the Department in the event that an agent, employee or representative of the Department attempts to solicit the same.

Project Performance Accountability Information, Instructions, and Form

NOTE: The following pages are included in the RFA (DOE 900D) template and are to be completed by the applicant. The Florida Department of Education has a standardized process for preparing applications for discretionary funds. This section of the RFA, Project Performance Accountability, is to assure proper accountability and compliance with applicable state and federal requirements.

The Department's project managers will:

- track each project's performance based on the information provided and the stated criteria for successful performance
- verify the receipt of required deliverables prior to payment

For projects funded via Cash Advance, the Department's project managers will verify that the project activities/deliverables are progressing in a satisfactory manner, consistent with the Scope of Work/Project Narrative and Performance Expectations, on a quarterly basis.

The Scope of Work/ Project Narrative must include the specific tasks that the grantee is required to perform.

Deliverables must:

- be directly linked to a specific line item/cost item that in turn links to the specific task/activity/service
- identify the minimum level of service to be performed
- be quantifiable, measureable, and verifiable. (*how many, how often, duration*). Effectiveness (*a method demonstrating the success such as a scale goals to be attained is necessary*). Evidence or proof that the activity took place (*Examples of deliverables: documents, manuals, training materials and other tangible product to be developed by the project, training & technical assistance and the method of provision, number of clients or individuals served, the method of providing the service and frequency*). Criteria for acceptance may vary based on the services being provided. Specific criteria will need to be developed by the program office, communicated to the provider, articulated in the deliverable form and will become part of the project award.

+The applicant must complete the information related to the required tasks to be performed and timelines/due dates for the respective tasks/deliverables consistent with the provided instructions. Per Chapter 215.971 F.S. financial consequences will be applied if the subrecipient fails to perform the minimum level of services required by the agreement. Unit cost is not necessary for each item but can be used to establish a methodology for reduction in the event minimum performance is not met.
